ANDREWS AIR CONDITIONING

ABOUT US

At Andrews Air Conditioning Services we are proud of our reputation as the UK's leading air conditioning service provider. As experts in the design, installation, maintenance and repair of all types of fixed air conditioning systems, we combine a full nationwide capability with the kind of friendly and cost-effective service you would expect from much smaller businesses.

As a subsidiary of Andrews Sykes Plc, the UK's largest specialist provider of temporary and permanent temperature control services, you can be sure we have the expertise and the resources to match our reputation.

HOW WE HELP

Owners of air conditioning systems must comply with a range of increasingly-complex legislation. F-Gas Regulations, Energy Certificates, Air Conditioning Assessments and the R22 phase-out programme are just a few. It all adds up to a confusing headache with potentially expensive results.

Andrews Air Conditioning Service Engineers are fully qualified in refrigerant handling, fault diagnosis and system repair. We are approved by the Register of Companies Competent to Handle Refrigerants (REFCOM). As a result you can be confident that our F-Gas Management Service includes all the checks and record-keeping required to ensure you comply with your legal obligations under the F-Gas Regulations.

Andrews Air Conditioning guides you through the legal maze, ensuring full compliance and complete peace of mind.

INSTALLATION

Andrews Air Conditioning Services is recognised as the UK market leader in the design and installation of energy-efficient air conditioning systems. That's why we install more air conditioning than anyone else.

MAINTENANCE

Andrews Air Conditioning is the UK's number one provider of planned air conditioning maintenance nationwide! We have the expertise to maintain all types of air conditioning systems and unrivalled experience in developing service plans to suit any environment.

BREAKDOWN & REPAIR

Need a fast, cost-effective repair? At Andrews Air Conditioning we understand how important your air conditioning is. As the UK's largest provider of air conditioning breakdown and repair services, Andrews Air Conditioning has the expertise to repair all types of air conditioning systems.
